INAIPI HOSPITALITY APP

The Inaipi Hospitality App is a fully customizable Android application for Avaya Vantage devices. When installed in the Vantage 3 device, the app's advanced UI design gives the device a rich look and feel that can be tailored to a hotelier's needs.

The application, along with the Vantage 3 device, delivers an excellent guest experience, delivering basic telephonic services such as outbound calling, inbound call receipt, and speed dialing.

The Inaipi Hospitality app can help make a hotel stay more attractive to guests. This application, which is installed in the Vantage 3 device, delivers a rich and customizable interface to guests. With programmable speed dial buttons, guests can quickly and easily call for hotel services or departments with a single click. The application also delivers functionality such as external dialling, mute, loudspeaker and more.

Highlights

- **Fully Customizable Application Interface** enables hoteliers to tailor the theme by including individualized information such as the hotel logo, hotel name, background image, and more.
- **Fully Integrated Telephony with Avaya Telephony** service delivers seamless call functionalities.

Features
